

# FACEBOOK COMMUNICATION

Our key and quickest way of communicating up-to-date information to our families is through the Internet, specifically Facebook. Communication is one of the most important aspects of a successful preschool year. If you cannot, or do not, use Facebook you will also get the information through flyers sent home or emailed, and information posted outside the classroom door. Some teachers will even use text to communicate.

If at all possible you should connect yourself via Facebook to the following pages and groups.

**OUR PUBLIC PAGE:** We will post updates to events, school closing information, PAC (Preschool Action Committee) information links to important parenting information, and other important information that pertains to the entire school. We keep this page public also to allow people, not currently involved with the school, the ability to see what we are about and hopefully gain their interest into pursuing it as a school option for their own children or grandchildren.
